Expense Chart to Estimate Financial Needs for College

Use this sheet as a guide only.

In the "Annual Costs" area, add all expenses to estimate your total annual costs. In the "Income & Savings" area, list any known scholarship money and savings & dividends that can be applied toward these expenses. Then list whatever sum you estimate can be allocated out of family earnings. Then, list any earnings from your part-time or summer employment.

Add all "Income and Savings" to see if this total is sufficient to meet "Total Annual Costs." If not, the difference will be the amount of outside financial help you will need.

ANNUAL COSTS	FIRST CHOICE COLLEGE	SECOND CHOICE COLLEGE	THIRD CHOICE COLLEGE
